

1. Login/Logout
 - a. firebase
2. Sign up + verification
3. Profile customization
4. School verification
 - a. SheerID??
5. Upload notes/pdf/slideshow to make flashcards - using AI
6. School page with classes
 - a. Alphabetical sort with search filter (ex. AAE xxx)
7. Resource sharing within classes (like a Drive?)
 - a. Labeled by semester
8. Flashcard set combination/consolidation
9. Detecting/Removing duplicate cards
10. Study group or buddy finder
11. Study scheduler
 - a. Similar to like leetcode's, where you commit to a certain amount a day at certain times
12. Study streak keeper
13. Match mode
14. Learn mode (Multiple choice)
15. Gravity game (or our own riff)
16. Practice test generator - using AI
17. Discipline-specific study modes
18. Different types of flashcards
 - a. Process steps
 - b. Diagram labels
 - c. Drag and drop / moving items features
19. Conceptual mapping with flashcards
20. Collaborative games like Kahoot that anyone can start and join - using AI
21. Search bar for flashcards
22. Search bar for classes/organizations
23. Search filters
24. Adding/removing yourself to/from a class
25. Making a flashcard set
26. Home page
27. User page/library
 - a. Folders
28. Dark Mode
29. Sharing a link (sharing button)
30. Rating system

- a. Star ratings
 - b. Amount of people who've used the set
- 31. Automatic removal from a class once a semester has passed (or at least an option to)
- 32. Tag reviews on flashcards/resources
 - a. Comprehensiveness
 - b. Depth
 - c. Similar to Content vs Original Cards
- 33. Content reporting
- 34. Mini Pomodoro with customized times
- 35. Progress tracker for flashcard sets
- 36. Student verification for study groups and adding materials to the drive?
- 37. Exam countdown
- 38. Suggested Study Sets
- 39. Study reminders/notifications
- 40. Link to video conferencing to add on to virtual chat
- 41. Dynamic feedback on answers with AI chatbot
- 42. Turn off AI feature
 - a. manual/user creation? (practice tests and such)
- 43. Fully deployed web app
- 44. Web scrape for other colleges

Key:

AI-assisted

Other ideas:

- Customize just for Purdue for now?
- I wonder if we could somehow import sets from quizlet so people can move over their sets

Product Backlog

Problem Statement:

Background:

Audience:

As online platforms and services become the norm for study materials and tools, students often rely on multiple services to use study materials and different study tools. Existing options are poorly designed and rely on premium features, lacking the centralization that students need.

Similar Platforms:

There are several existing study tools like Quizlet, Anki, Remnote, and Studocu, that allow students to use study tools in different ways. Quizlet, Anki, and Remnote focus on flashcards with different variations and Studocu allows students to pool study materials.

Limitations:

The main limitation of these platforms is that useful features are behind paywalls (Quizlet), the main study tool is only flashcards (Quizlet, Anki, Remnote), finding other study materials for the same class created by other students is extremely hard to find (Quizlet, Studocu), and these platforms are not centralized.

Functional Requirements:

1. As a user, I would like to be able to register for an account.
2. As a user, I would like to be able to login and manage my account.
3. As a user, I would like my password to be reset if I forget it.
